"Real-world learning brings the benefits of formal and informal education together and reinforces what good educationalists have always known: that the most meaningful learning occurs through acquiring knowledge and skills through real-life, practical or hands-on activities."

Keeping these words of wisdom in mind, Industry Interaction and Student Activities Committee (IISAC), Department of Commerce, Delhi School of Economics organized the **Port Visit (Jawaharlal Nehru Port)** for the students of MBA-International Business, 2nd year. Jawaharlal Nehru Port, also known as Nhava Sheva, which is the largest container port in India.

Students were accompanied by the presence of "**Prof. Jayakar Sodagiri**" to guide them throughout the visit. They visited the port on 4th of February and had a short meeting with the officials before lunch.

One of the officers from the Port accompanied the students on their visit. He explained and elaborated upon the origins as well as the technicalities of the Port.

Students got acquainted with Vessel Dimensions, Vessel Operating Frequency, Types of Containers, Container Scanner, Cranes and their Operational Purpose.

It took around two hours to scout via every nook and cranny of the port. Students were imparted with real life insightful experiences and most necessarily the details about how the biggest container port of India works and on this note the compelling port visit came to an end.
